

# Quiz

Let's solve a quiz to see where you stand!

Which of the following is the correct way to declare a variable `number` ?

A variable name can start with an underscore.

Which of the following is not a valid identifier?

(You can check multiple correct answers)

It is not necessary to initialize a variable at the time of declaration.

What is the output of the following code?

```
int main() {  
    const int number ;  
    number = 5 ;  
    cout << number << endl;  
}
```

```
}
```

6

What is the output of the following code?

```
int main() {  
    int input1 = 100;  
    int input2 = 500;  
    input1 = input2;  
    cout << "input1 = " << input1 << endl;  
    cout << "input2 = " << input2 << endl;  
}
```
