

# Quiz Yourself on HTTP Headers

Let's take a quick quiz on protection through HTTP headers.

What does the `hsts` header do when turned on?

Is [educative.io](https://educative.io) HSTS preloaded?

What is HPKP?

How can HPKP lead to websites shutting down?

How does a clickjacking attack work?

How does the `xfo` flag protect us from a clickjacking attack?

[Retake Quiz](#)

---

On to the next one! Let's learn how HTTP cookies work and how to secure them.
