

Challenge: Displaying Output

Test yourself and implement what you have learned so far in this challenge.

We'll cover the following ^

- Problem Statement

Problem Statement

In this challenge, your task is to display some text. The text you have to display is a famous movie quote.

My mamma always said, life is like a box of chocolates. You never know what you're gonna get.

Movie Quote

If your code doesn't match the quote exactly, it won't pass the test case, so be careful.

Try the exercise by yourself first, but if you get stuck, the solution has been provided. Good luck!

Assume that the `main()` function has already been declared.

// Write your code here

Let's go over the solution review in the next lesson.
