

# Challenge 1: Display Text on the Console

Let's test your understanding of the concepts we've covered by solving a simple challenge.

We'll cover the following ^

- Problem statement
- Coding exercise

## Problem statement #

In this challenge, your task is to display the following text on the console.

```
Hey! I am John.
```

 **Note:** Please print the output in this format; otherwise, your code will not pass the test case.

## Coding exercise #

Before diving directly into the solution, first, try to solve it yourself, and then check if your code passes all the test cases. If you get stuck, you can always see the given solution.

Good Luck! 👍

```
// Write your code inside the curly brackets  
{  
  
}
```

< Use `cout` along with `<<`

>

Display text in a single line

You have just solved your first challenge.

🎉 Congratulations! Give yourself a round of applause.

Let's go over the solution review in the next lesson.
