

Quiz 9

Question # 1

```
TRUNCATE tblA;
```

What will be the outcome of this query?

[Retake Quiz](#)

Question # 2

Which statement deletes rows, frees the space containing the table but cannot be rolled back?

[Retake Quiz](#)

How can you create an empty table from an existing table?

Question # 4

Which operators can be used in query for pattern matching?

Question # 5

Consider a table with one col having integer data type as follows:

ID
1
0
0
0
1
0
1
1

Write a query to change the values of Col1 from 1 to 0 and from 0 to 1.

We can simply subtract each value from 1 to get the opposite value as follows:

```
UPDATE tbl
SET Col1 = 1 - Col1;
```

```
mysql> UPDATE tbl SET  Col1 = 1 - Col1;  
Query OK, 8 rows affected (0.01 sec)  
Rows matched: 8  Changed: 8  Warnings: 0
```

```
mysql> SELECT * FROM tbl;
```

```
+-----+  
| col1 |  
+-----+  
|    0 |  
|    1 |  
|    1 |  
|    1 |  
|    0 |  
|    1 |  
|    0 |  
|    0 |  
+-----+
```

```
8 rows in set (0.00 sec)
```
