

Quiz

We're done with functions. Let's refresh what we've learned with this quiz. Good luck!

1

```
void sum(int a, int b) {  
    int sum = a + b;  
    return sum;  
}  
  
int main() {  
    int x = 3, y = 4;  
    printf("%d", sum(x, y));  
}
```

What would be printed to the screen?

2

```
<stdio.h>  
  
void my_func(int x, int y){  
    x = y * 4;
```

```
x = y + 4;  
y = x + 10;  
}  
  
int main(){  
    int x = 5;  
    int y = 9;  
    my_func(x, y);  
    printf("%d %d", x, y);  
}
```

What will be the values of `x` and `y`?
