

# Challenge: List of Cubes

Test yourself and implement what you have learned so far in this challenge.

## We'll cover the following

- Problem Statement
  - Input
  - Output
  - Sample Input
  - Sample Output
  - Test Yourself

## Problem Statement #

You have to create and populate a list of cubes given a list of integers.

## Input #

The input is the list `integers`.

`integers` has already been declared for you.

## Output #

The output will be `cubes` which should include the cubes of the items in `integers`.

## Sample Input #

```
[1,2,3]
```

## Sample Output #

```
[1,8,27]
```

## Test Yourself #

Write your code in the given area. Try the exercise by yourself first, but if you get stuck, the solution has been provided. Good luck!

```
var cubes = [0,0,0]; // Modify cubes
```

Let's go over the solution review in the next lesson.
