

Challenge 1: Display Output

This challenge requires you to print the output in a particular format.

We'll cover the following ^

- Problem Statement
- Coding Exercise

Problem Statement

You have to print the following statement to the console:

```
"I am learning Rust programming language"
```

Coding Exercise

Write your code below. It is recommended that you try solving the exercise yourself before viewing the solution.

Note: There is a `test` function given in the code for testing purposes. Do not modify it.

Important Note: Please use only the above string in your solution code. If any other string is used, the test button will give a failed result.

Good luck!🍀

```
fn test() {  
    //Write code here  
}
```

Hint 1 of 1

< Use `print!()`

Let's move on to the detailed solution review in the next lesson.
