

Quiz Yourself on Bug Bounty Programs

Let's take a quiz to test your knowledge of bug bounty programs!

1

Is the following `security.txt` file valid?

```
Contact: mailto:security@example.com
Preferred-Languages: en
Canonical: https://example.com/security.txt
Policy: https://example.com/bug-bounty-program.html
Hiring: https://example.com/careers.html
Acknowledgments: https://example.com/hall-of-fame.html
```

2

What is the purpose of a `security.txt` ?

3

`security.txt` files are sent in the clear.

4

What should be done if an ‘ethical’ hacker demands for money before conclusively proving that a vulnerability in the system exists?

5

Ethical hackers are impatient and rude and should be dealt with carefully.

6

Which of the following does a bug bounty program advertisement usually not include?
