

Solution Review: Displaying Output

In the following lesson, we will go over the solution for the challenge: Displaying Output.

We'll cover the following

- Task
- Solution

Task

In this challenge, you were required to display the following movie quote:

My mamma always said, life is like a box of chocolates. You never know what you're gonna get.

Movie Quote

Solution

To complete this challenge, you had to make use of the `print` statement, writing the movie quote between the parentheses (`()`) that follow the word `print`. Furthermore, as the movie quote is a piece of text, you had to encapsulate it with quotation marks (`" "`).

You can find the complete solution below.

You were required to write the code given on **line 2**.

```
main() {  
    print("My mamma always said, life is like a box of chocolates. You never know what you're gonna get.")  
}
```

Let's wrap up this chapter in the next lesson with a quiz to test what you have learned so far.
