

Quiz

Let's take a quiz and review some of the material we covered in this chapter.

1

How do we add multiline commands in `jenkins-x.yml` ?

2

It is preferred that the names of steps in `jenkins-x.yml` follow the rule:

3

What is the purpose of the `agent` step ?

4

If we want to override the `build` step of the `release` pipeline, the syntax would be:

5

Loops can contain the following: (Multiple correct options)

6

The `jx step syntax schema` command is used to consult the full syntax schema of `jenkins-x.yml` or for build packs' `pipeline.yaml` files.

[Retake Quiz](#)

In the next chapter, we will discuss how to define and run serverless deployments.
