Challenge 2: Display Output Using Placeholders

This challenge requires you to display output using the placeholder notation.

We'll cover the following	^

- Problem Statement
  - Output
- Coding Exercise

Problem Statement

The task is to display the pyramid of numbers in the following format.
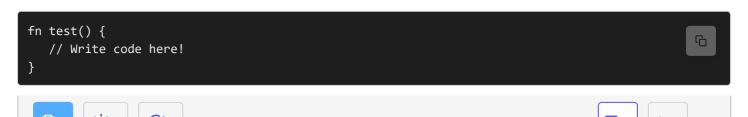

Output
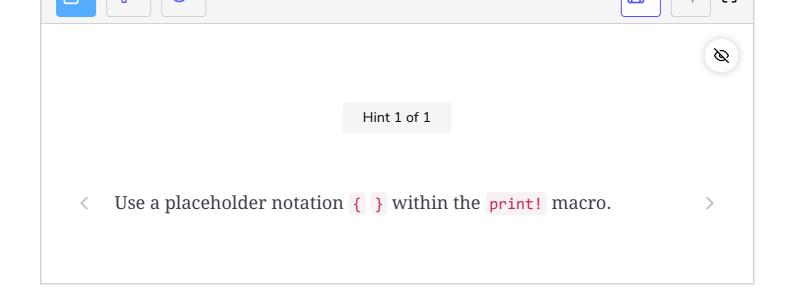

```
1
22
333
4444
55555
```

Coding Exercise

Write your code below. It is recommended that you try solving the exercise yourself before viewing the solution.

> **Note:** There is a `test` function given in the code for testing purposes. Do not modify it.

Good luck! ✌️

```
fn test() {
    // Write code here!
}
```

Hint 1 of 1

< Use a placeholder notation `{ }` within the `print!` macro. >

Let's move on to the detailed solution review in the next lesson.
