Introduction to Cloud - Quiz 2

Here is a quiz on FaaS and cloud instances.
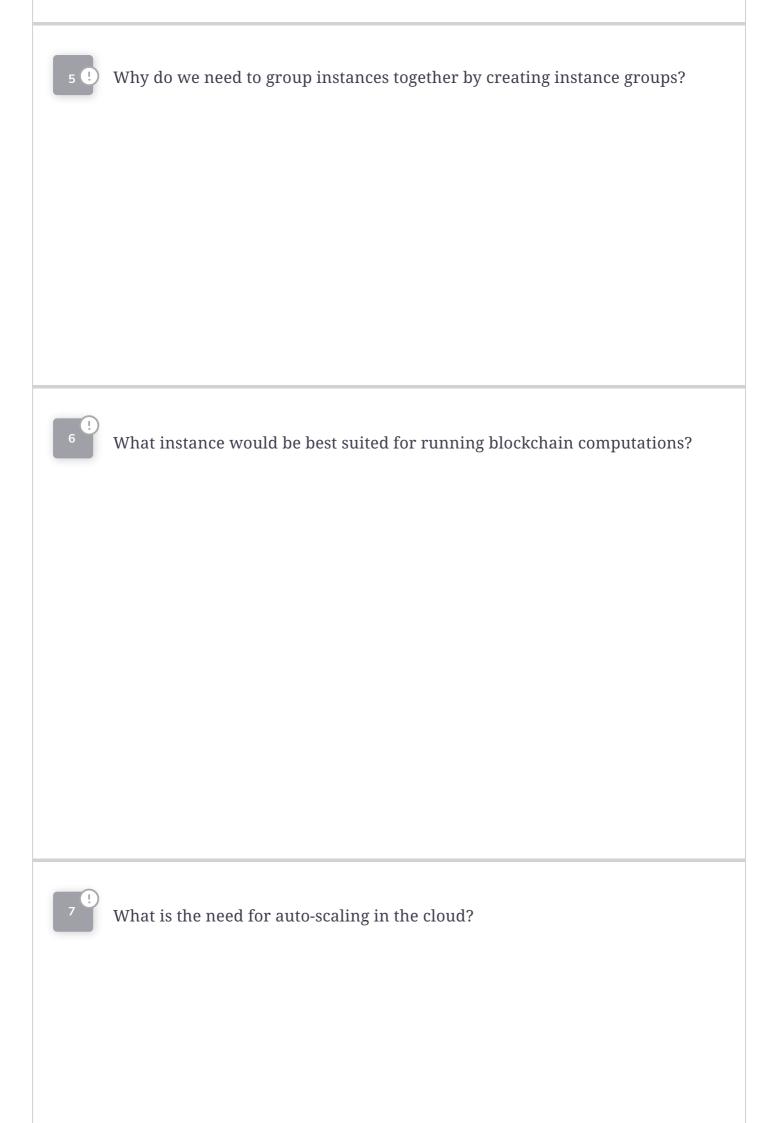

Let's test your understanding of FaaS and cloud instances.
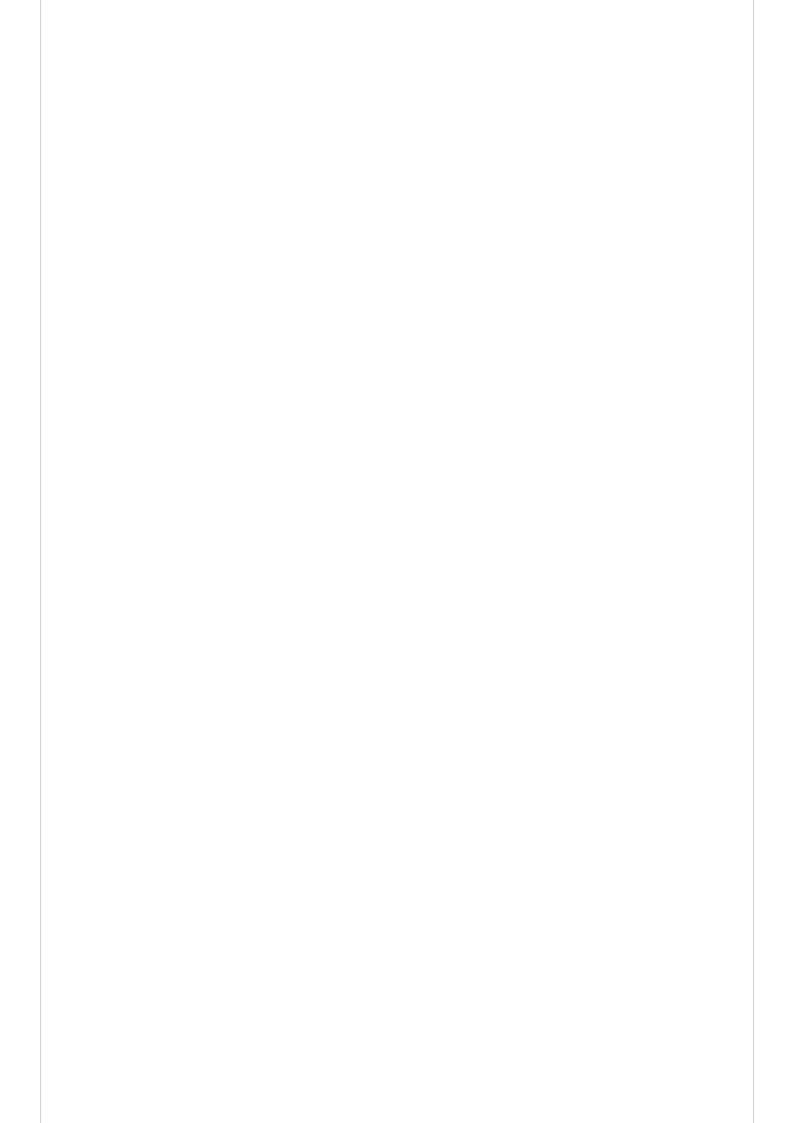

1 ⚠ Why do we need the FaaS cloud service model?

2 ⚠ What is the cold start problem in FaaS?

3 What is the difference between Serverless and FaaS?

4 What are CPU intensive workloads?

5 Why do we need to group instances together by creating instance groups?

6 What instance would be best suited for running blockchain computations?

7 What is the need for auto-scaling in the cloud?
