Conclusion

This lesson contains the concluding remarks for this course.

We'll cover the following   ∧
• Where to go from here?

Here, you are at the end of your long journey. We hope that this course has met your expectations.

Where to go from here?

The purpose of this course was to introduce you to the basics of C++. To cover the advanced topics you can take the following courses:

Learn Object-Oriented Programming in C++

Data Structures in C++: An Interview Refresher

Algorithms in C++: An Interview Refresher

C++ Standard Library including C++ 14 & C++ 17

Embedded Programming with Modern C++

Generic Programming Templates in C++

Thank you so much for taking this course to the end! Keep practicing and have fun!

> Programming is a skill best acquired by practice and example rather than from books. -Alan Turing

Happy coding!
