Quiz

This short quiz tests the concepts of strings in explained in this chapter!

1 Take a look at the code below. What will be the size of s printed?

```c
int main(void) {

  char s [] = "table";

  printf("s is %ld elements long\n", sizeof(s));

    return 0;
}
```

2 What is the correct way to shorten the string:

```
char x[] = "This is a bat and ball"
```

to

```
char x[] = "This is a bat"
```

Which of the following is NOT true about strings?
