Quiz Yourself on DDoS Attacks

In this lesson, we'll take a short quiz on DDoS attacks.

1 ⚠ What is the difference between a DOS attack and a DDoS attack?

2 ⚠ How are DoS attacks blocked?

3 ⚠ DDoS attackers have to generate *massive* amounts of traffic to be effective.

4 It's best to handle DDoS attacks with the help of an external provider.

5 DDoS attacks are incredibly expensive for the attacker since they involve getting ahold of a great number of machines to execute the attack.

Let's get into a monetization strategy, bug bounty programs, in the next chapter!
