Test Your Knowledge 5

Let's take a small quiz!

We'll cover the following ⌃

- Quiz on Loops

Quiz on Loops

This Quiz will take maximum 10 minutes.

1 ⚠   Which of the following syntax is correct for `while` loop?

2 Choose the statement that is false:

3 _____ is used to break the execution of a loop.

4 The following code will generate a sequence of integers from 1 to 10 :

```
for (i in 0:9) {
    print(i)
}
```

5 Which of the following statement can be used to explicitly control looping?

6 _____ by default initiates an infinite loop from the start.

7 The syntax of the `repeat` loop is:

```
repeat
{
    break
}
```
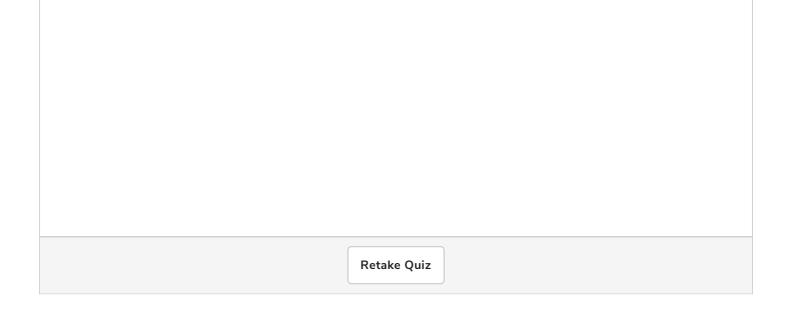

8 The syntax of the `for` loop is:

```
for loop(v in vector)
{
    statement
}
```

9 We cannot use the `break` statement in a `for` loop.

10 In R language, nested `for` loops are allowed.

In the next chapter, we will move onto **functions** in R language.
