Quiz

Let's take a quiz and review some of the material we learned in this chapter.

1 What was the main disadvantage of the **"Freestyle jobs"** in traditional Jenkins?

2 The static flavor reduced the role of the "traditional" Jenkins, while the serverless eradicated it.

3 Static Jenkins X is for all those who seek the full power of Kubernetes and want to be genuinely cloud-native.

4 Which of the following is an effective way of reducing repetition while using `Jenkinsfile` ?

5 Which of the following is not a pipeline type that is defined in `pipeline.yaml` ?

6 What is the purpose of the `postbuild` lifecycle of a pipeline?

7 The `preSteps` mode will add a new step before those in the lifecycle inherited from the build pack.

8 If we want to run the command: `echo "This is top secret!"`, after the build is executed the the pipeline should be:

The next chapter will cover the process for upgrading Jenkins X components.
